How do you get gold in evony the king's return

brawler99999 Destrier I decided to create this thread as I go along competing offers to help the forum that I will add to the thread as complete more offers. #1 King on board. All you have to do is practically play the tutorial. It takes about 5 minutes.#2 Evermerge Completion Time: 3 days This game is insanely boring and you want to make you vomit, but if you are going to make this offer make sure you check out their facebook as it has links to free endurance. You just need to focus on clearing the main missions for xp. Join for 5 to get a bonus. And never merge coins or gems or blue gems (blue gems are used as substitute for an object. Useful if you have to melt big things.) Use gems for buying gold then buy the stamina.#3 Evony the ReturnTime King to complete: 2-3 weeks!! Horrible game with horrible adults that will not help you. The world chat is useless, timers are absurdly long, boring. My advice would not be to take this offer there will be heavy rng involved in getting the epic general historical. When I started there were so many things and I was quite confused until I watched some useful videos youtube that helped me. The main goal to complete the offer is to get the level of the tavern as high as possible, but you need to update your maintenance and to upgrade your maintain you have to ugrade the wall. This is part of why I hate this offer so much. But basically you just need to update what you need to update your maintenance. And update the tavern, market until you unlock the black market, and practically everything. Tavern: to have the possibility to complete this offer your tavern must be at the highest level 16. But don't freshen up again. At 16 the possibility islow to obtain a general historical epic. Upgrade the tavern to 19+ is a good time to start refreshing. Although each update costs 50 gems and stacks quickly so you have 10k + gems ready to refresh. Finally, it costs 30 million gold to the minimum to buy a historical epic you will know if one comes from a gold goldand a helmet around their portrait. Gold is not a problem as you can sell your generals. Gems: You get gems quite easily. Updating your maintenance you can open a gift box in your article section with gems and other goods. Check the events and take a good look to see what the awards are usually there is a ton of events, but impossible for the neophytes. Usually every weekend there is a world leader around the map. All you have to do is send 1 troop a weak general to hit the head and get gems and gold free. If you have some gems my advice would buy vip builder and 3 day builder helps enormously. Speed: speed increases can vary from 5 minutes to 10 to 1 day. Very important in the fast update. Just do easy side missions with speed increases as a reward and focus on the main missions. although you can jump both, but those speed ups stack up fast. Also there is speed increases around the map which costs resistance to claim. Always claiming them. Never claim resources boxes. Tips. Train tier 1 troops. do not mix troops only choose 1 type. For example. 100 ground troops will have fewer victims, then fighting with 50 archers or 50 land. Train 1 traps. Don't focus on enemies just to finish missions or events. Do not attack other players or monarchs you lose troops and you spend the training resources them back. Turn only using the option 900 chips in luck wheel. Patrol a couple of times (you click on your walls) use only your free patrols never spend gems unless you get a speed of 24 hours on or something good. Search in the military option to unlock extra March slot. And finally joining an active clan even if you are refused just refresh yourself to findpreferably with more than 10m of power and 40+ members brawler999 Destrier #4 Raid shadow Legends Time to complete:1-3 days Game slightly fun, standing game. All you have to do is focus on the campaign, use green scrolls to summon the characters and choose the green guy like your 5-star starter focus on him. Use gems on the resistance. Equio best equipment equipmentboy and use other 2 star heroes in the most difficult country level you can do for xp. Get the 2 star characters at level 20 and sacrifice 2 of them to get a star hero 3. Then level the 3 star heroes for lvl 30 and sacrifice them to get a 4 star do the same until you get a 5 stars quite simple. brawler99999 Destrier #5 Vegas Slot doubledown casinoTime to complete: 1-2 days Another rather boring casino game. My advice to level quickly is to go on the Chinese dragon one and only spam and hope you get lucky. If you run from coins look for the thr game codes and you will see online there are links that you click for free chips. Simple game gets boring after a bit 'Poopface Moderator . Forum janitorial staff don't know how you are getting all these game options. All (literally all) my options require my use of valid personal information to buy something, subscribe to something, or to take a 40-minute survey. Browncoats4ever Contributoron trusty It's not such a bad guy after all Mastering the Puppets The only offers I get are for surveys... I ask about 10-12 questions, they don't qualify me... then offer another survey... later, rinse, repeat. I am on android and recently I returned to the game when these offers were introduced if it helps santaclaus falcon I had theGross activity for 2 months and none of them are anywhere near your solar reward level system or ease of completion. I did the 5 most detestable tasks for a total of 2041 gold for about 20 hours of actual play. I could go to work for 1 hour to "guadagnate" like 15k gold. gold.
